

Important Official Documents

Information about two important new documents appears in the 9 April 2009 issue of "RSM Newsflash", an online release from Radio Spectrum Management (RSM):

1. A [discussion paper](#) on spectrum management in the radio licensing regime. Submissions in response close on 19 May. Please note the format required and the 28 questions for which answers are sought.
 2. A [technical report](#) that is wide-ranging and which poses many things for thought. This paper should be compulsory study for enthusiastic and technically-inclined radio amateurs!
