

Contests 06/07-June-2009

I am presently "trekking" my way back home from Conference and lack either a reliable Internet connection to here in Opotiki to compile this week's bulletin. However a perusal of my usual sites for gathering information for the bulletin indicates no proposed contests that would be of interest for this weekend.

Next week I will cover the matters that evolved from the Conference Contesting Forum, including suggested rule changes to the Sangster Shield and Memorial Contests. Also a suggested change to the Jock White Memorial Contest that would encourage increased 40M activity was put forward by Stuart, ZL2TW (in his absence by myself).
